

### Whakaute (Respect) - Collegiate Value

This term is filled with events around learning and cultural weeks. In school we are lucky enough to celebrate our differences and what makes our community special. At SEHC Junior we know that respect looks like taking part in cultural celebrations and listening to the stories of others. We know it means giving time to share what is special about ourselves and keeping our languages alive. You are gifted when you can speak more than one language. Are there school events you can help with? Please talk to your child's teacher.

### Whanaungatanga (Relationships) - Collegiate Value

Thank you families for working with us to help keep our children safe on the road before and after school. We still need your support to remind our children to use the designated area where our school road patrollers are standing to cross the road safely. PLEASE refrain from parking on the footpath. Our students use the footpath to walk home safely or wait patiently for their families to pick them up. Let's continue to work together to keep our children safe.

### Hiranga (Excellence) - Collegiate value

Students' and families wowed us from day 1, coming to school everyday and taking part in our Hiranga Week. We saw future builders, mechanics, surgeons, social workers, influencers and astronauts! Every day matters at school as the research shows, those with great attendance achieve in life because they have resilience, social skills and a can-do attitude! We encourage our students to come to school everyday and take up every opportunity to learn new things. Our students can be whoever they want to be when they grow up, when they put their heart and mind to it. 'Work hard, dream big, take action and never give up!'

### Caught showing Hillary Heart

Congratulations to the leaders in Rm 15, Grace you always help others and show excellence, Junior you have outstanding attendance and a very hard worker!

### Pick Up After School

Please find a safe spot without yellow lines to park and walk over to collect your child/children from in front of gate 1 entrance. Avoid stopping just in front of the school crossing to call out to your child/children to jump into the car. This is not safe for our tamariki. Please help us to keep our tamariki safe!
